and feel gratitude for Gods doing in our life. "My gratitude speaks... When I care and When I share with others the N.A. Way." – Basic Text: Third Edition, Revised

One addict shared:

"This I feeling starts off as a feeling that leads into strong action. The feeling of being grateful lets me be humble for this program and what today has given me. Gratitude let me get out of myself to practice humility to its fullest and not in my best of ways but in my gods best of way. Gratitude can also help me deepen my surrender even in the most hardest times. Because those feeling that are hard to deal with like pain, grief, fear, and hurt. Are feelings that I never wanted to look at or work through when I was using."

We come to understand how our 12th Step shows our Gratitude. Having had a spiritual awakening as a result of those Steps (the first 11), we tried to carry this message to addicts, and to practice these orinciples in all our affairs. If we haven't had the full message. Our Gratitude speaks as NA has given us through our 12 Steps and sage with others as how could we keep such a wonderful gift that was given to us to ourselves. We want others to have the same gift we have been given. Service is not a chore or a job it is a joy to be able those spiritual awakenings, we can't carry we become Grateful for the gift of life that 12 Traditions. We then share that mesto have something to share with those that are right where we were before.

Gratitude is an Action Word

GRATITUDE: A WORD OF ACTION

wished people no good in life, because we where but obstacles between us and our We were not grateful for those things, they a lot to help us, to try to save our lives our own lives. Our loved ones maybe tried our way; material things, relationships and the feeling that things are going our way, and death. Or try a new way of life. we continue this path, to jails, institutions road, we were granted a choice, either do other's. When we reached the end of the have had such a "shitty luck" so should using. We could be jealous of other's and basically destroyed anything that came in we were not that grateful of anything, we it's much more than that... When using Gratitude is not just saying "Thank you" or

others as well to do the right thing for the right reason often a grateful one". Often we are doin how to care for it so it stays available for pain it causes in our lives. We must learn for so long, a way out of addiction and the have been given what we where looking for to something greater. After all we already one day at a time and leave the results has been given to us it becomes easier energy. When we are truly grateful for what of gratefulness and can take away all our thinking and acting. Self pity is an enemy we are in pain because of our old ways of be grateful for. Clean we can still feel like more is the most obvious change we can using and finding ways and means to get today and not having to live in the pain of better than we are feeling. Being clean Our literature states: "an honest look is

When we receive a gift from someone today, if we are grateful, we will take care of that gift, maintain it and care for it. If we are grateful for it, we do not throw it in the dumpster. When we first came to NA, it was hard for

us to experience gratitude, but as recovery progressed, so did we. We are able to see that progress today, that it's possible to stay clean. With the help of other's, we can see where we came from and how far we have gone since, when we see the proof that the program works for us just as for many others, we feel gratitude. We see that we weren't the only ones with problems, that we are not alone as we have thought for so long.

NA and God have granted us the gift of life, freedom! And if we are grateful, we will take care of that gift, do the actions necessary to maintain that gift, and want that gift for others. How we do that is through the program of Narcotics Anonymous, to be examples for others; working the steps with guidance from our sponsor's, pray and meditate daily, searching for Gods will, go to meetings, communicate with other addicts and get involved in service, to help carrying the message so maybe others also can experience that beautiful gift of life.

The message we carry needs to be clear, so addicts are granted the opportunity to accept or decline our way of life, we can not adapt the program to every individual's life, but we can adapt our lives to the program.

We are grateful for Gods grace and the addicts who still suffers. this disease and to carry the message to each other, help each other recover from principles in our lives. We need to care for on recovery and how we apply the spiritua share our experience, strength and hope and gratefully of our time to serve. We have to, that is not gratitude. We give freely work and do all the service, so we don't granted that everyone else will put in the taught by God and NA? We do not take for live according to the principles we were tribute with any means we can, and try to help fulfilling our primary purpose, to con-Narcotics Anonymous. Do we give back

We are grateful for everything in our life today, good or bad things. We can learn something from all experiences if we keep an open mind and appreciate the moments as they are. It's a blessing to be grateful for what we have today, we don't always have to chase more physical things, to focus on wat we do not have. We can appreciate life as it is.

Our gratefulness is shown in how we live, not in what we say. We hear that a grateful addict won't use. A grateful addict does more than that. We give, we love, we care, and we carry our message to the still suffering addict. Things we take for granted are the first things we will lose to the disease of addiction.

It's great to put out gratitude in writing by doing a gratitude list, to put our blessings on paper helps us see that there's something other than ourselves that have granted us these blessings it helps us see
